AN ALLEGED KIDNAPPING

Little Harold Sloper Has a Thrilling Experience

A Prize Baby Boy is Abducted by a San Francis Excursionist and Meets With Many Startling Adventures—A Very Happy Return

The little flag station on the California Northwestern railway at Cotati, near Santa Rosa, might have been the scene of a lynching on Sunday night all because of a foolish act on the part of William H. Lowe of San Francisco, who was one of the excursionists from the metropolis to Ukiah, says the Santa Rosa Press-Democrat. There is a baby in the case, and Lowe found himself in the unwittingly assumed role of a kidnapper, a part he had played so well in the notions of some excited people when the train pulled into Cotati that he found himself surrounded by a mob and threats were made to lynch him right away. He was already Sheriff Grace's prisoner and the sheriff kept the crowd at bay. The starting up of the train caused a scramble for seats and ended the danger. Lowe was brought to the county jail, was locked up over night and on the train Monday morning he was taken to Ukiah by Deputy Sheriff Smith.

A Press-Democrat representative interviewed Lowe in his cell at the jail in Santa Rosa Sunday night. The idea of his being placed in the category of a Pat Crowe seemed a preposterous one to him. He partly blamed the matter to the Mendocino county liquor he had imbibed during the day at Ukiah. He was not drunk in an incapable way, he said, but had taken several drinks. He went to the Ukiah depot to take the return train home. There was a crowd there and everybody felt very happy after such a beautiful day in the sunshine of Mendocino's capital.

The winsomeness of cute three-year-old Harold Sloper, the prize baby boy at the Ukiah fair, attracted Mr. Lowe, who confesses, despite his bachelorhood, to a copious love for little folk. According to his version of the story, the youngster was either handed to him by some one or else he picked him up himself, and believing the child was being left behind he swung aboard the already moving train with him and—there he was with somebody else's baby. Before leaving the depot at Ukiah he had bought the young ster some popcorn.

Lowe told his interviewer that just as soon as he boarded the train he made inquiries as to the child's mother, whom he thought was aboard. His story was verified in this particular by some of the passengers. No one who knows Lowe believes he had any idea of kidnaping.

For a time after the supposed kidnaping the wires were kept hot with the sending of instructions to officers. As stated before, Sheriff Grace clasped the handcuffs on Lowe at Cotati. When the second section of the Ukiah excursion arrived it brought little Sloper's aunt and she took charge of the boy. Then the demonstration was made against Lowe. The child was taken back to Ukiah and Lowe was brought here to jail. Of course the feelings of Mrs. M. A. Sloper, the child's mother, can easily be imagined when she found he had been kidnaped. Her joy was intensified when he was returned to her upon the arrival of the evening train at 10 o'clock.

The Misses Lillian and Eunice Sloper of Petaluma, aunts of Harold Sloper, were aboard the second section of the excursion train returning home in the evening. Little Harold was with his mother at the Ukiah depot to kiss his aunties good-bye when he was spirited away. Some of the youngster's relatives have gone so far as to suggest that Lowe wished to kidnap the child and hold it for a ransom.

Lowe was brought to this city and placed in the local jail. Monday he was taken before Justice Critchfi who held him under bonds of $1 Subsequently the bail was reduced $1000, and last evening the bond rived from San Francisco and was cepted by the judge and the priso released.

Attorney Mogan came up from San Francisco to represent Lowe. He brought letters from many prominent residents of the bay city, which would seem to indicate that Lowe not only comes from a good family but has many influential friends in the metropolis.

The popular theory seems to be that Lowe had taken a few drinks, and, being a lover of pretty children, took the child aboard the train to treat him to refreshments.

It is said to be a fact that while on the train Lowe made efforts to discover the parents of little Harold. The chances are that it was a tempest in a teapot, although the anger and anxiety of the parents and relatives of the child when they thought him stolen may readily be imagined.

After all, all is well that ends well, and it will evidently be an experience that all parties to will hereafter appreciate.

Brakeman Injured.

Brakeman W. M. Green of the day freight in charge of Conductor Saunders, running between Petaluma and this city, was badly injured at Asti Wednesday, and is now in Petaluma receiving medical treatment. Green opened a freight car at Asti in order to unload freight, when a box of tea fell from the pile of freight. In attempting to catch it he dislodged a case of canned lard, which fell upon his left arm, badly injuring that member but breaking no bones. He was taken down on the afternoon train Friday and will be laid up for some time.

The Hoover Entertainment.

The concert given at the Christian church last evening by Miss Esther Hoover, the wellknown elocutionist of San Francisco, was well attended and thoroughly enjoyed. The music rendered by the Symphony orchestra was excellent, and the recitations by Miss Hoover displayed the vocal artist. Dr. Glen McWilliams furnished great entertainment, and the vocal solos by Mrs. Ernest Holliday were highly appreciated. Altogether the affair was more than successful. It is entertainments such as this that should be given more frequently.

Found Dead.

Frederick Miller, a man about sixty-five years of age, was found dead in his bed at the Ukiah house yesterday. The coroner was immediately summoned and an autopsy was held by Dr. Moore. The conclusion was arrived at that the deceased had come to his death by heart failure. He had been employed on the local extension of the railway near Willits. The body was interred in the local cemetery, no letters having been found on him that would lead to his more perfect identification.

Superintendent Zook has been up during the week looking after the interests of the California-Northwestern railway, the grading of which is practically completed.

A Deserved Success.

The entertainment given by Mrs. Ella Linser in Centerville Monday evening for the organ fund was a decided success and was greeted by a large and enthusiastic audience. Mrs. Linser, as well as her pupils, should feel proud of the success of the entertainment. The feature of the evening was Professor A. F. Calhoun of Ukiah through which his fine cornet, violin and mandolin solos were generously interspersed. He was enthusiastically encored. After the entertainment ice cream was served and a social dance, of which a goodly number availed themselves, closed the evening. The amount cleared for the organ fund was $40.

Ruddock-Harrison.

The home of J. D. Harrison was a scene of a pleasant wedding Saturday evening last, the participants being C. J. Ruddock and Mary K. Harrison, both of Philo. It was a very quiet affair, only the bride and groom's near relatives being present. C. W. Brown officiated; T. D. Ruddock being best man and May Kirchofer bridesmaid. About ten oclock the band, consisting of horns and tin cans struck up a lively air which lasted about half an hour after which the guests were received and supper was served. The guests took their departure with best wishes for the happy young couple who are well known throughout the valley. The groom is a prominent rancher of Philo and will take up his residence at that place with his bride, a popular young lady also of Philo. Calvin is the happiest man in town, so they say, and I actually believe it, for when I met him the next day he had a beaming smile on his face denoting happiness. The community wishes them a very long and happy married life on which they are just starting. *

NORTHERN MENDOCINO

Brief Record of Interesting Local Occurrences

Great Improvements Being Made by the Enterprising Citizens of Little Lake Valley. A Building Boom Now On.

WILLITS, October 23.—While hauling ties at the mill last Thursday the brake bar broke on Arthur Braskett's wagon and the team ran away. The wagon was considerably smashed and one mule was killed.

Henry Bowen visited Ukiah last week.

The dance given by Professor Barlow's orchestra last Saturday was a grand success.

Orrin Dunlap was in town Friday.

James White was down from Laytonville Sunday.

Game Warden Ornbaun was in town Friday. It is understood that he was informed that Drs. Chalfant and Woelfiel had killed more than the lawful bag of quail—25. They easily proved an alibi, however, as the bag was Chalfant 3, and Woelffel 6, instead of 36. Contractor Mahoney and Foreman Meyers were also suspected but plead not guilty.

Marshal Nicholson was down from Round valley Friday.

Mr. and Mrs. Otto Miller and family returned Saturday from a visit to friends and relatives in San Francisco.

Mrs. W. O. White and daughter returned from a two weeks' visit to Ukiah.

J. A. Banks was in Ukiah this week after saws and machinery for the new mill at Sherwood. Tobe Coffer reports that they will have the mill running this week.

C. O. McWilliams is now a full fledged carpenter.

It is reported that the surveyors have finished work on the route of the proposed extension of the Fort Bragg railroad to this city and work on the road is reported commenced. In the event of this extension Willits will become a railroad center as in time the extension of this road to Eureka is assured. All coast travel will pass through here as will also the freight. Indications point to good times ahead and no mistake.

H. Houx of Eden valley was in town this week.

Last Wednesday Jeff Dickens received word that his brother Dick had been killed in Tuolumne county. No particulars could be obtained. It is believed the accident happened in the woods. Mr. Dickens left immediately to attend the funeral.

Dr. Clark was called to the mill this week to attend the child of Mr. McLean who has been very sick.

W. G. Meyers, who has been confined to his residence for some time with erysipelas, was able to be on the street last Saturday.

L. E Davidson who has been very sick for some time past is able to be around again.

Tom Chase was in from the Gilbert & McGuire ranch last Saturday. Tom says that he is unable to discover any wild animals on the ranch. They have got on.

A FALSE FACE.

When dyspepsia fastens on a man it changes his feelings and it changes his looks. He frowns now instead of smiling. His expression is harsh instead of kindly. He is wearing a false face—a face which does injustice to the real nobility of his nature.

Dr. Pierce's Golden Medical Discovery cures dyspepsia and other diseases of the stomach and allied organs of digestion and nutrition, and the record of the cure is written both in the face and the feelings of the person cured.

"Golden Medical Discovery" is not a stimulant or temporary tonic. It cures the diseases that are the cause of ill-health and builds up the body with sound flesh.

Accept no substitute for "Golden Medical Discovery." The sole motive for substitution is to enable the dealer to make the little more profit paid on the sale of less meritorious medicines.

"Last spring, early, I wrote you my feelings and condition," says Mr. A. J. Vanderwater, of 873 West Division Street, Chicago, Ill., "and you advised me to take Dr. Pierce's Golden Medical Discovery, and then write how I felt. I am happy to say I am getting to feel fine. In all I have taken six bottles of the 'Discovery' and four or five vials of the little 'Pellets.' They have done me worlds of good. All my friends say: 'Vanderwater, how well you are looking.' The medicines have made the great change in me: from the slow mope of a man that could hardly crawl, tired and sick all the time, could do no work, to a man who can work, sleep, eat, and feel fine, and that tired feeling all gone away. I am very thankful that I wrote to Dr. Pierce. His 'Golden Medical Discovery' and his little liver 'Pellets' have almost made a new man of me. I feel young as I did at thirty years."

Dr. Pierce's Pleasant Pellets cleanse the clogged bowels.

The property and franchises of the Northwest railroad, in order to satisfy claims and judgments, were sold in Baker City, Or., by Wallace McCamant, master in chancery for the United States circuit court for the district of Oregon. The sum paid was $35,000. There was only one bid, that of Louis Rosenzweig of Erie, Pa. Rosenzweig acted for Charles M. Reed, who is a large creditor of the Northwest Railroad company.

Mabel Franklin Mayer, 13 years old, was shot and killed while asleep in bed at her home, 508½ Jessie street, San Francisco, by John Stano, a native of Turkey. Stano then put the pistol to his head and killed himself. He was a constant visitor at the house of Mrs. Mayer, and had become infatuated with the girl, who gave him no encouragement. Joseph J. Mayer, father of the dead girl, has been mining in Alaska, and is now on his way home.

San Francisco mining men, including Joseph R. Kendall, George C. Walker and J. Scott Ecker, have purchased 23 mining claims located on Red Mountain, in Snohomish county, Wash. The price paid was $100,000. Red Mountain is 1,500 feet high, with veins of quartz carrying gold, silver and copper running from one side to the other. The purchasers have incorporated the Kendall Red Mountain Mining and Development company to work the mines and also to generate electric power for mining and sawmill purposes.

Highbinders exploded giant powder under the window of the store of Wong You at 1021 Dupont street, San Francisco, which did considerable damage to the interior of the store. Several Chinese in the street at the time were knocked down by the concussion.

It is stated that the British government is about to mount some big guns in the forts at Signal hill, Esquimalt, which means that the little village at the naval station will have to be evacuated by civilians, as the concussion from the guns would make the town uninhabitable. When equipped this will be the most formidable fort on the Pacific, being cut out of a solid mountain of granite, and the largest guns will be mounted there.

John Alwin, master of the steamship Garonne, has had his license suspended for 90 days, and Duncan Cree, her chief engineer, has had his papers revoked, for bringing the vessel, which sailed on Sept. 20 for Nome, back to Seattle, on the ground that it was unsafe, owing to "leaky boilers and poor coal," to proceed on the voyage. The ship was well on her passage to her destination.

An electric railway between Los Angeles and Santa Ana will shortly be under way.

Two fine thoroughbred horses, valued at $1,500, the property of E. J. Baldwin, were killed by being struck by a Southern Pacific train on the Santa Monica line, near Los Angeles. A third horse was so badly injured that it will be almost worthless.

A Chinese named Tsoy Sin, employed as cook at the home of Dr. George H. Palmer, at the corner of Jackson and Steiner streets, San Francisco, was attacked by a hatchetman who had concealed himself in the house, and his head so horribly chopped that death may result. The police believe the deed to be an aftermath of the recent Chinatown war.

Miss Mary Knudson of Moscow, Ida., says that she arrayed herself in bridal robes and waited in vain for the Rev. John W. Spencer to come and marry her. Her parents had prepared a wedding supper. Miss Knudson, for alleged injury to feelings, has filed a suit for $10,000 for breach of promise, and the sum of $100 is asked for the bridal costume and the supper. Miss Knudson is the daughter of a well-known farmer, and Spencer is an itinerant preacher and the son of a wealthy farmer.

Alexander Manning returned to his home in San Rafael, Cal., shattered in mind and health as the result of a trip to Alaska in search of gold. About three years ago Manning went to Nome, and while there he and four friends struck out for the interior in quest of rich diggings. Hardships on the trip killed three of the party, but Manning and one other man were rescued. Both had lost their reason, although Manning sufficiently recovered to be sent home. Manning, however, does not remember San Rafael nor his wife or family. His mind seems to be a blank as to the past. It is thought probable that he will recover in a short time.

Edna Wallace Hopper, the actress, is now a wealthy woman through the death of her mother, Mrs. Josephine Dunsmuir, the appraisement of whose estate was filed at Oakland, Cal. The appraisers fixed the value of the property at $206,526.88, to all of which, with the exception of $50,000 in trust for her brother, Miss Hopper is the heir.

The physicians and surgeons who attended President McKinley through the closing days of his life presented to the State Medical society, gathered in New York, a report covering the medical and surgical history of the case. Dr. Mann said: "If you ask me what caused the president's death, I could not tell you. I doubt if that will ever be discovered. Among contributory causes, however, were the president's age, his lack of exercise and his naturally weak heart, which made his pulse high.

Two prominent Chicago people, Mrs. Charlotte Nichol and Dr. Orville Burnett, a South Side dentist, deliberately planned to die together and took quarters for the night in the Marlborough hotel. Morphine was secured and the gas turned on. When discovered the woman was dead, but the man still lived, with a hatpin piercing his neck from side to side, a bottle of morphine clutched in one hand, and his nostrils inhaling the gas fumes. Mrs. Nichol was the mother of two children, and the wife of W. J. Nichol, commercial agent for the Nashville, Chattanooga and St. Louis Railway company. He used the words of Edmund Burke at the trial of Warren Hastings, substituting Croker's name where the name of Hastings occurred and New York city where India occurred.

SOUTH AFRICAN WAR.

PRETORIA, Oct. 20.—A force of Canadian scouts surprised a Boer laager near Balmoral. The Boers fled after a short fight. The Canadians had two killed and one officer and two men wounded.

"Mr. Kruger has received a report from Schalkburger that the greater part of Cape Colony is in open rebellion," says a dispatch of Oct. 1 to the London Daily Mail from Brussels, "and that the Boers have armed 15,000 Arrikanders within the last three months."

Twelve more Boer leaders, including Commandant Scheepers, who was captured Oct. 12, have been permanently banished from South Africa.

All reports are denied as to the interference of any of the European powers in regard to South Africa. A Washington dispatch says that "President Roosevelt is entirely in harmony with the policy of the late President McKinley in all matters connected with the war in South Africa, and, so far as known among his most intimate official associates, there is no reason to believe that he will change his attitude in the least."

The Boers continue active at various points. In a fight near Piquetburg, Cape Colony, Captain Bellew and four other British were killed and several others were wounded. A convoy left Bloemfontein for Dewetsdorp, escorted by 120 of the Scots Guards, who were attacked by 200 Boers, who held a position on the hill. The fighting lasted all day until dusk. The Boers decamped during the night, leaving 20 dead behind them. The British casualties consisted of 11 slightly wounded.

CRIMES AND ACCIDENTS.

Mrs. Louise H. French and her sister, Mrs. Alicia Gardner, were brutally assaulted and robbed at Rochester, N. Y., by two men who said they had been sent by the gas company to overhaul the gas fixtures. The men carried away $3,000 worth of diamonds, $165 in money, a sealskin coat and a number of minor articles.

Lillian Lamont, a child of 12 years, while walking in her sleep at her home in Boundbrook, N. J., climbed out upon the windowsill of her bedroom and fell. Directly beneath the window, stuck in the ground, was a sharp-pointed stick used to support creeping vines. Upon this the child fell, the sharp point entering her body and impailing her. Just how long the child, fortunately rendered unconscious, remained in this terrible position is not known, but toward daylight her father, George Lamont, discovered her.

Five men were killed and two injured when an enormous mass of rock caved from the side and roof of the Rapid Transit tunnel, in course of construction on Broadway, about the line of One Hundred and Sixty-fourth street, New York. Owen Bly, the section boss in charge of the work, was placed under arrest.

Edward Sutherland, a blacksmith residing at Scholls, a small village about ten miles south of Hillsboro, Or., was found dead with a gunshot wound in the right side of his head. Sutherland had left home in the morning, taking with him his shotgun and stating to his wife that he was going in search of China pheasants and would return at noon. As he did not return, a search was instituted, resulting in the body of the unfortunate man being found on the banks of the Tualitin river. The gun had been discharged, and was by his side. While the theory of accidental death or suicide is plausible, the officers are inclined to believe that murder has been committed.

IN THE PHILIPPINES.

Plot to Slaughter American Soldiers Discovered In Time.

MANILA, Oct 20.—Owing to the vigilance of Lieutenant Thomas M. Baines, Jr., of the Ninth United States infantry, another slaughter of American troops by the insurgents has been averted. Lieutenant Baines discovered a prisoner re-entering a cell at Carbiga, island of Samar, where several are confined, through a hole that had been made in the wall. An investigation showed a plan to fill the jail with bolomen and to call the guard, which would be necessary to get the door open, and then to attack the garrison. The instigators were a priest and the presidente, both of whom have been arrested, together with several other prominent persons. Other attempts have been discovered, but fortunately frustrated, at Pambujan and other points in Samar. Reinforcements are being rushed to Samar. Officers from other provinces that were supposed to be pacified have recently arrived in Manila and they say that the news of the American disaster spread like wildfire among the natives, who scarcely attempt to conceal their delight.

The Ninth infantry has again been attacked by bolomen on the island of Samar, and several men were killed and wounded. General Chaffee sent the following cablegram to the war department: "Manila, Oct. 13.—Forty-six men, Company E, Ninth regiment, United States infantry, under First Lieutenant George W. Wallace, in field, lower Gandara, Samar, were attacked by 900 bolomen Oct. 16. Our loss ten killed, six wounded; names not received. Eighty-one of the enemy left dead on the field. Enemy beaten off."

A dispatch from Washington says that in all probability additional troops will leave the United States for Manila by Dec. 1. It has been decided to utilize the transport Crook, now at New York, and orders have been issued to get her in readiness for the voyage to the Philippines. In addition to the troops to be sent from New York a regular regiment of either infantry or cavalry will be assembled at San Francisco and go to Manila on the transport Grant, which is now being held at San Francisco for that purpose.

Disemboweled, but Survived.

A dispatch to the New York Sun from Bultimore says: One of the most wonderful cures effected of late at the Johns Hopkins hospital is that of William Clancy, who was literally disemboweled with a bowieknife several months ago. In the broiling sun he was brought in a rough wagon to the hospital, a distance of nine miles. On arriving at the hospital the physicians expressed the opinion that he could not live. His intestines were found to have come out through the wound, and part of them were covered with dirt. Clancy showed marvelous vitality, and recovered sufficiently to sit up. Recently an obstruction was found in his intestines, and the wound had to be opened again and the trouble rectified, but Clancy again came out of the operation successfully, and is now on the road to complete recovery. The case has attracted much attention among medical men.

Marquis Ito was the guest of President Roosevelt at luncheon.

From the quarters of the Duke of Teck on board the royal yacht Ophir, at Halifax, N. S., a gold watch and a wallet containing 20 sovereigns were stolen. The timepiece had been owned by some members of the house of Teck for four generations, and was highly prized. On the invitation of his royal highness the Duke of Cornwall and York a number of officials who had manned the train conveying the royal party to Halifax dined on board the Ophir. The duke's guests included Sir Wilfrid Laurier and several of the federal ministers. The theft was not discovered until some time after the guests had left the ship.

THE COUNTY REVIEWED.

What the Busy Residents of Mendocino Are Doing.

COVELO, Oct. 19.—When two neighbors meet the weather is the first thing they talk about. It has been exceedingly warm the last few days for this time of the year. The vegetation that started from the effects of the last rain has about stopped growing, but if more rain should come soon it will be all right.

Peter O'Farrel is said to be around again all right.

Last Tuesday night while William Stephens was coming down the Winsor hotel stairs he fell, breaking his left arm in two places.

The town has been very quiet the last week, when we take into consideration that it was race week. There was but one fist fight reported and that did not amount to much, only in big words and bluster.

There does not seem to have been much money changed hands on the races: all seem to be satisfied with the result.

There has been a good deal of gameing at the tables with the usual result—the saloon men and bankers get away with the most of the money.

There is but little benefit to be gotten from horse-racing. If it was draft or team horses that they were trying to improve it might be worth while.

Those interested in the races say that they have had a fine time all the week and that it has been a very successful meet.

It looks quite like old times to see H. Marks on the street. He is up looking after his business in Covelo.

Joe Bennett is still in town.

Some of the local farmers, who have been plowing, had to quit on account of the ground becoming too dry. A good rain would not be amiss.

Your correspondent noted an article in last week's PRESS concerning the construction of a boulevard from Ukiah to the Mendocino State hospital three miles southeast of that city. It would be a good project and one that should be pushed through with great interest by all the people of Mendocino county. The people of Ukiah should be praised for their past works of improving that city. Their electric works are first class for a city of that population and the sewer system is a great success, while the streets are always kept clean and well sprinkled. May the good works of improving go on.

Among the social events of last week was an impromptu gathering in honor of School Superintendent Barbee who stayed over night with us on his trip from the coast. Music and cards were in order. A most laughable incident of the evening was the turning tables on Mr. Barbee, who was was made to play the part of a school boy under examination and catechised most unmercifully. He came out of the inquisition with flying colors and proved himself able to enjoy a good joke even at his own expense.

A tamale supper was given Thursday evening by Mesdames Chalfant and McClellan to a few invited guests. Mrs. Paul Baier and Max Gets of San Francisco graced the feast with their presence. S. S. Fellows was asked but excused himself on the plea that he had drank too much soda water over in Ukiah and that soda water always made him very tired.

A Question of Nationality.

It happened at one of the Baltimore police stations. The prisoner, a long haired hobo son of Erin, lounged against the bar of justice. The justice glared at him over his spectacles.

"What's his name?" he inquired of the lieutenant.

"Michael O'Hara, squire; charged with being drunk on the street."

"H'm! Foreign born," mused the justice. "Sprechen sie Englischen, O'Hara?"

The prisoner straightened up in his soleless shoes and, with the dignity of generations of kings, said:

"Squoir, it's an American citizen I am from me birth, being born in Oireland. I want me case tried by an American judge an not by a foreign dago with a spache that a Christian can't understand."

"Oh, you're Irish. I thought your name had a German sound," said the squire, more humbly. "Case dismissed, lieutenant."—Baltimore Herald.

Marine Creatures That Catch Birds.

"One of the names of the great, clumsy, moon shaped, wide mouthed fish commonly called the angler," said an old fisherman, "is goosefish. There is nothing gooselike in the angler's appearance, but somebody once saw an angler, big and clumsy as it is, come up unaware and nab a goose that had settled on the water and drag it under; hence the name.

"But then, as far as that's concerned, you wouldn't expect seals to be bird catchers, would you? As a matter of fact the harbor seal does occasionally get a bird, such as a duck, which it might so chance upon as to be able to capture it."

A Bar to Marriage.

Papa (mathematical professor)—What? You want to think of marriage when you don't even know where to find the hypothenuse of a right angled triangle?—New York Times.

The thriving town of Sydney, Cape Breton, was almost swept out of existence by fire, which is supposed to have been started by the bursting of an oil-stove. The loss is roughly estimated at about $500,000, not more than half of which is covered by insurance.

Sousa, who is proving a great attraction at Glasgow, returns to London in November, and will give 12 concerts at Covent Garden and 12 in the afternoons at the Empire. At the Glasgow exposition the Grenadier Guards' band is simultaneously performing, but no rivalry has arisen, the bandsmen of the two countries fraternizing to a marked degree. They were photographed in one group, and Sousa's men gave the Grenadiers a complimentary supper, the Grenadiers returning the compliment.

Deputy County Clerk J. R. Elder left this morning for San Francisco on a business visit. He will return Sunday.

Murder and Suicide In San Francisco. Dimmick Sentenced—Olive-Growers In California Will Organize—No Bubonic Plague In San Francisco.

The new Raymond hotel at Pasadena, Cal., will be opened Jan. 1.

Peter M. Van Aken, proprietor of a grocery store on Wesley avenue, Los Angeles, was instantly killed by coming into contact with a live electric wire in his stable.

William McBride, for many years head of the Washington press bureau of the Cincinnati Enquirer, has purchased the Salt Lake Tribune.

The physicians and pharmacists of Los Angeles have organized an association to protect the public from adulterated drugs and medicines. The object of the association is to establish a bureau of materia medica consisting of physicians, pharmacists and chemists specially interested in the investigation and standardization of medicines and chemicals.

The special health commissioners appointed by the governor of California to confer with the federal authorities in Washington respecting the alleged existence of bubonic plague in California have made their report, in which it is stated that "San Francisco is and has been absolutely free from the disease, and that those who said it existed were either mistaken or deliberately misrepresented the facts."

Within a year the residents of Shasta county, Cal., may see the establishing of one of the largest lumbering enterprises on the Pacific coast. Attendant upon it will be the constructing of a railroad line connecting the county seat with the extreme northwestern section of the county, with the possible extension of the road into a transcontinental line.

At Ballard, Wash., officers opened fire on five highwaymen as they were escaping from N. Theissen's saloon with $50 in cash and two gold watches. Bullets flew in all directions, but the only evidence that any one was hit came from the fact that one highwayman was helped along by his companions in flight. Three blocks from the saloon the desperadoes met M. J. Davis, local agent for the Great Northern, whom they beat into insensibility and robbed of $100 in gold and a gold watch.

The lumber schooner La Gironde, Captain Grimm, on her way north from Redondo, struck in a fog on the island of San Clemente and went to pieces. The crew of eight escaped in the lifeboat and reached San Pedao in an exhausted condition. The schooner was owned by Clarence A. Thayer, secretary of the E. K. Wood Lumber company of San Francisco, and was built at Port Ludlow, Wash., in 1875.

At Seattle, Captain Charles W. Alms and all other officers of the steamship Charles D. Lane were exonerated by the local board of United States inspectors for the loss of that vessel by shipwreck on the rocks of Nunivak island, Behring sea, July 13 last. An incorrect chart is given by the board as the real cause of the wreck.

Judge De Haven refused to grant Walter N. Dimmick a new trial, denied a motion for arrest of judgment, and sentenced the ex-chief clerk of the mint at San Francisco to imprisonment at hard labor for two years in San Quentin. This was for his conviction on the charge of having presented to Cashier Cole a fictitious voucher for $498.37, and for having applied the money to a purpose not contemplated or allowed by law. The remaining minor embezzlement charges will come up for trial on Nov. 7.

More than two-thirds of the olive-growers of California were represented at a meeting in Los Angeles to discuss ways and means of obtaining better prices for their product. It is proposed to organize all the olive-growers of the state, and the following committee on permanent organization was named: O. A. Washburn, Los Angeles, chairman; R. F. Billings, Corona; E. R. Meserve, Los Angeles; A. R. Sprague, San Francisco, and H. Sturdivant, Los Angeles.

Ed Nolan, who served a term of 30 years in San Quentin, was captured near Ballard, Wash., and is now held in jail at Seattle subject to charges of piracy and burglary. His companion was "Shorty" Wilcox, a notorious San Francisco water-front thief. Wilcox made a daring escape by plunging into a sort of marsh. In a blind garret, where Nolan and Wilcox lived, were found the accumulations of several burglaries which have hitherto baffled the Seattle police. Nolan is charged with piracy on Puget sound.

British purchasing agents are buying large numbers of horses in Whitman, Walla Walla and other stock-raising counties of eastern Washington. Thousands of horses have been offered by farmers in western Canada, but these are found too light. The purchasing agents are paying $50 to $75 each for good horses, as against $360 per head which the British army has to pay at Cape Town. It is said that 50,000 more horses will be required.

R. L. Pitts, alias "Red" Pitts, was arrested in San Francisco by secret service agents. Pitts was one of the gang of which Frank Perry, Billy Hagan and E. W. Smith were said to be the leaders, and which made a specialty of passing the notes of a defunct bank of New Brunswick, N. J. The plates were not destroyed when the bank went out of existence, and over $250,000 worth of notes were printed before the fraud was discovered. All the members of the gang have been indicted by the United States grand jury, and most of them arrested.

Judge Ellsworth, at Oakland, Cal., decided that the much-disputed Reno (Nev.) marriages are valid in California. In his rulling Judge Ellsworth agrees with Judge Hebbard of San Francisco, but disagrees with Judges Troutt, Seawell and Belcher, who have held that marriages contracted at Reno by persons who have been divorced within a year are not valid. Judge Ellsworth said that for a final ruling the matter will have to be taken to the supreme court.

Willie Fuller, a 12-year-old boy, whose home is in Ontario, Cal., was arrested at Redlands and brought to the county jail at San Bernardino with charges of burglary against him. Fuller had broken into Wells, Fargo & Co.'s office, the Santa Fe freight offices and six residences for the purpose of robbery. Recently he was arrested for stealing a horse and carriage, and he would have been committed to the reform school, but Ralph Swing, a local attorney, obtained consent of the court to take the boy into his home. He has twice robbed his benefactor.

Rev. J. M. Foster, pastor of the church from which Jackson was suspended, is quoted as making the following statement in regard to the case: "We look upon the constitution of the United States as an immoral document and an insult to the Almighty, in that it makes no mention whatever of God, and claims for the people that sovereign power which belongs to God alone. We refuse to accept the constitution thus defective and cannot swear allegiance to it."

The London Daily Chronicle learns that a syndicate of tradesmen and others who will lose heavily in the event of the coronation not occurring, have effected insurance on the life of King Edward for a very large sum at Lloyds at the high rate of 10 guineas per cent.

A mass meeting of Cornell university students was held for the purpose of adopting resolutions to discourage hazing, which reappeared between members of the under classes recently. The sentiment of 1,000 students present was unanimous in favor of repressing the spirit, and the sophomores and the freshmen were warned against further indulgence.

Commander B F Tilley, U. S. N., governor of Tutuila, Samoan islands, has been detached through charges preferred by missionaries. The charges against him include misbehavior with native women, intoxication at his station at Apia, at Auckland and on his ship, and a reckless disregard of his duties as an officer and a gentleman. Rear-Admiral Evans is now on his way to Samoa, where he will preside at the court martial of Commander Tilley.

Henry E. Cooper, territorial secretary of Hawaii, has discussed with Secretary of Agriculture Wilson the conditions of the territory. Mr. Cooper says the labor problem is a serious one. The natives are dying off rapidly, the mortality being about 40 deaths to the 1,000, and foreign laborers are getting out of the country much more rapidly than they are coming in. The encouragement of Chinese labor, he said, is regarded as the most promising solution, and the territorial government is desirous that large numbers of laborers shall come in from China. The natives generally, said Mr. Cooper, will not wok.

After many unsuccessful trials Santos-Dumont made the circuit of Eiffel tower at Paris in his airship; but the committee having the affair in charge refused to give him the 100,000 francs offered as a reward because he failed to make the trip in the required time, he having exceeded the time limit by 40 seconds. This decision caused great dissatisfaction among the large assemblage of spectators.

The wholesale stamp department of the Chicago postoffie was entered by burglars and stamps of the value of $74,610 taken. An investigatton showed that the burglars had crawled under the flooring for about 300 feet, bored a hole in the bottom of the vault, secured the stamps and escaped, carrying their booty to a wagon. Some of the stamps are of large denominations.

Several schooners of the Behring sea sealing fleet arrived at Vancouver, B. C., and it is expected all will be back in a few days. The Behring sea catch is about 12,000, which, with the 7,000 taken on the coast by Victoria schooners, 10,000 taken by Victoria and Japanese schooners on the Asiatic coast, and 22,000 taken by the lessees of the Pribyloff islands, will bring the world's catch up to over 50,000.

New England's building at the Pan-American exposition, at Buffalo, was destroyed by fire. The valuable contents of the building, consisting of rich furnishings of historic value, costly oil paintings and other articles of great value, were entirely destroyed. The building cost $80,000, and the loss on contents is estimated at $100,000. The structure was one of the finest of the so-called state buildings on the exposition grounds.

A cable to the New York Sun from Manila says: The worst typhoon in ten years has been raging for the past few days. Its center has been about 60 miles from Manila. Eight miles of railroad have been destroyed, and half of North and Central Luzon has been submerged. A majority of the telegraph lines have been damaged, and government and other vessels have suffered. Twenty persons have been killed in Manila bay. The town of Baler has been demolished.

Ranges are becoming so overcrowded that the struggle for grass is resulting in almost daily conflict, in which bloodshed is becoming frequent.

By the payment of $200,000 to the attorneys of Dedmachy & Sellers, the Paris bankers, Samuel Newhouse, the well-known capitalist, who is heavily interested in several of the more prominent mines of Utah, has come into control of the Cactus group of mines in southern Utah. Fully $1,000,000 will be spent in the equipment of these mines. A modern mill of large capacity will be built somewhere in the neighborhood of the mines, and a monster smelter, with a capacity of at least 500 tons a day, will be erected in the vicinity of Salt Lake City.
